

Introducing

# The Invisible Clock-II® U.S. Patent Pending

Silent  
Vibration

## Lets your body tell the time!

This unique device offers a new, more relaxing way to stay on top of time. Designed for the professional and the patient alike. Whether you have a hearing or memory deficit or need to discreetly time a counseling or medical session, the *Invisible Clock-II*® has five special features to help.

### Silent Alarm

The Invisible Clock® can be set to **beep** or **vibrate**. Keep time discreetly in meetings, during presentations or at the theater. Have a hard time hearing a normal alarm? Let your body tell the time.

### Meeting/Interval Timer

The meeting/interval timer vibrates at the halfway point, again five minutes before time's up, and at time's up, for any interval you set. Each vibration is distinct so you know exactly where you are along the way. Great for monitoring time intervals, meetings or counseling sessions.

### Custom Timer

The custom timer can be set for any countdown time from 2 seconds to 60 minutes. Then set up to 6 unique alerts to signal anywhere within this countdown time. Set for one countdown, to repeat, or to count-up after countdown completes. Great for monitoring medical sessions, or tracking time intervals. Alerts signal in unique vibrations or unique beeps.

To order for only **\$39.95** (FREE shipping)

Repeating  
Timer

### Multiple Alarms

You can set up to **12 different alarms** to vibrate or beep at various times during the day, so you have amazing flexibility to handle just about any time management challenge. This helps in following a medication regimen or for remembering multiple tasks. Use as a silent alarm clock.

Actual Size (1/2" x 1-1/2" x 2-1/8")

### Repeating Timer

Set the timer to alert once or to repeat itself, vibrating or beeping at any interval you choose for as long as you like. It's an excellent way to pace any repetitive need. Great for building new habits or as a memory aid. Perfect for meditation/affirmations.

### Plus:

- Stopwatch
- Adjustable vibration intensity, beep volume and number of beeps
- Quick-release garment clip
- Illuminated display
- Auto button lock prevents cancellations
- Easy to follow instructions
- Wear on waist, in pocket or around neck
- Uses 1 AAA battery (settings saved when changing battery)
